Amend Business & Professions Code Section 2570.2(k)

(k) "Practice of occupational therapy" means the therapeutic use of purposeful and meaningful goal-directed everyday life activities (occupations) with individuals, groups, or populations to address participation and function in roles and situations in home, school, workplace, community and other settings. Occupational therapy services are provided for habilitation, rehabilitation, promoting and maintaining health and wellness to those who have or are at risk for developing an illness, injury, disease, disorder, condition, impairment, disability, activity limitation or participation restriction. Occupational therapy addresses the physical, cognitive, psychosocial, sensory, and other aspects of performance in a variety of contexts to support engagement in everyday life activities that affect physical and mental health, which engage the individual's body and mind in meaningful, organized, and self-directed actions that maximize independence, prevent or minimize disability, and promote or maintain health, well-being, and quality of life. Occupational therapy services encompasses research, education of students, occupational therapy assessment evaluation, treatment, education of, and consultation with individuals who have been referred for occupational therapy services subsequent to diagnosis of disease or disorder (or who are receiving occupational therapy services as part of an Individualized Education Plan (IEP) pursuant to the federal Individuals with Disabilities Education Act (IDEA)), individuals, groups, programs, organizations, or communities.

(1) Occupational therapy assessment evaluation identifies performance abilities and limitations that are necessary for self-maintenance, learning, work, and other similar meaningful activities. Occupational therapy treatment is focused on developing, improving, or restoring functional daily living skills, compensating for and preventing dysfunction, or minimizing disability. Occupational therapy techniques that are used for treatment involve teaching activities of daily living (excluding speech-language skills); designing or fabricating selective temporary orthotic devices, and applying or training in the use of assistive technology or orthotic and prosthetic devices excluding gait training). Occupational therapy consultation provides expert advice to enhance function and quality of life. Consultation or treatment may involve modification of tasks or environments to allow an individual to achieve maximum independence. Services are provided individually, in groups, or through social groups or via telehealth technologies.

(2) Occupational therapy includes, but is not limited to, performing as a clinician, supervisor of occupational therapy students and volunteers, researcher, scholar, consultant, administrator, faculty, clinical instructor, continuing education instructor and educator of consumers/clients. The term "client" is used to name the entity that receives occupational therapy services. Clients may be categorized as:

a) individuals, including individuals who may be involved in supporting or caring for the client (i.e. caregiver, teacher, parent, employer, spouse);
b) individuals within the context of a group (e.g., a family, a class); or
c) individuals within the context of a population (e.g., an organization, a community).

(i) "Hand therapy" is the art and science of rehabilitation of the hand, wrist, and forearm requiring comprehensive knowledge of the upper extremity and specialized skills in assessment and treatment to prevent dysfunction, restore function, or reverse the advancement of pathology. This definition is not intended to prevent an occupational therapist practicing hand therapy from providing other occupational therapy services authorized under this act in conjunction with hand therapy.

(m) "Physical agent modalities" means techniques that produce a response in soft tissue through the use of light, water, temperature, sound, or electricity. These techniques are used as adjunctive methods in conjunction with, or in immediate preparation for, occupational therapy services.

LEGISLATIVE COUNSEL'S DIGEST

AB 171, as amended, Beall. Autism spectrum disorder. Pervasive developmental disorder or autism.

(1) Existing law provides for licensing and regulation of health care service plans by the Department of Managed Health Care. A willful violation of these provisions is a crime. Existing law provides for licensing and the regulation of health insurers by the Insurance Commissioner. Existing law requires health care service plan contracts and health insurance policies to provide benefits for specified conditions, including certain mental health conditions, coverage for the diagnosis and treatment of severe mental illnesses, including pervasive developmental disorder or autism, under the same terms and conditions applied to other medical conditions, as specified. Commencing July 1, 2012, and until July 1, 2014, existing law requires health care service
plan contracts and health insurance policies to provide coverage for
behavioral health treatment, as defined, for pervasive developmental
disorder or autism.

This bill would require health care service plan contracts and health
insurance policies to provide coverage for the screening, diagnosis, and
treatment, other than behavioral health treatment, of autism spectrum
disorders pervasive developmental disorder or autism. The bill would,
however, provide that no benefits are required to be provided by a health
benefit plan offered through the California Health Benefit Exchange
that exceed the essential health benefits required under specified federal law. The
bill would prohibit coverage from being denied for specified reasons
health care service plans and health insurers from denying, terminating,
or refusing to renew coverage solely because the individual is diagnosed
with or has received treatment for pervasive developmental disorder
or autism. Because the bill would change the definition of a crime with
respect to health care service plans, it would thereby impose a
state-mandated local program.

(2) The California Constitution requires the state to reimburse local
agencies and school districts for certain costs mandated by the state.
Statutory provisions establish procedures for making that reimbursement.
This bill would provide that no reimbursement is required by this act
for a specified reason.

State-mandated local program: yes.

The people of the State of California do enact as follows:

SECTION 1. Section 1374.73 1374.745 is added to the Health
and Safety Code, to read:

Coverage required to be provided under this section shall not be subject to provisions relating to lifetime maximums, deductibles, copayments, or coinsurance or other terms and conditions that are less favorable to an enrollee than lifetime maximums, deductibles, copayments, or coinsurance or other terms and conditions that apply to physical illness generally under the plan contract.

LEGISLATIVE COUNSEL’S DIGEST

AB 374, as amended, Hayashi. Athletic trainers—Athletic. Existing law provides for the regulation of various professions and vocations, including those of an athlete agent.

This bill would make it unlawful for any person to hold himself or herself out as a certified athletic trainer unless he or she has been certified by the Board of Certification, Inc., and has either graduated from a college or university, after completing an accredited athletic training education program, as specified, or completed requirements for certification by the Board of Certification, Inc., prior to January 1, 2004. The bill would make it an unfair business practice to violate these provisions.
Existing law provides for the regulation of various professions and vocations, including those of an athlete agent.

This bill would, commencing January 1, 2013, provide for the licensure and regulation of athletic trainers, as defined, by an Athletic Trainer Licensing Committee, to be established by the bill within the Medical Board of California. Under the bill, the committee would be comprised of 7 members, as specified, appointed by the Governor, subject to Senate confirmation, the Senate Committee on Rules, and the Speaker of the Assembly. The bill would, except as specified, prohibit a person from practicing as an athletic trainer or using certain titles without a license issued by the committee. The bill would require an applicant for licensure to meet certain educational requirements; pass a specified examination; hold specified athletic trainer certification; possess emergency cardiac care certification; and submit an application and pay an application and processing fee established by the committee.

The bill would require the committee to issue a license to an applicant who qualifies for licensure and pays a specified license fee. The bill would also specify that a license shall be valid for 2 years and is subject to renewal upon the completion of specified requirements including the payment of a renewal fee. The bill would define the practice of athletic training and prescribe supervision and other requirements on athletic trainers. The bill would create the Athletic Trainers Account, within the Contingent Fund of the Medical Board of California, would direct the deposit of the application and renewal fees into this account, and would make those fees available to the committee subject to appropriation by the Legislature.

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.7 (commencing with Section 18898) is added to Division 8 of the Business and Professions Code, to read:

CHAPTER 2.7. ATHLETIC TRAINERS

18898. (a) No person shall hold himself or herself out to be a certified athletic trainer unless he or she meets the following requirements:
(1) He or she has done either of the following:
(A) Graduated from a college or university after completing an athletic training education program accredited by the Commission on Accreditation of Athletic Training Education, or its predecessors or successors.
(B) Completed requirements for certification by the Board of Certification, Inc., prior to January 1, 2004.
(2) He or she has been certified by the Board of Certification, Inc.
(b) It is an unfair business practice within the meaning of Chapter 5 (commencing with Section 17200) of Part 2 of Division 7 for any person to use the title of "certified athletic trainer" or any other term, such as "licensed," "registered," or "ATC," that implies or suggests that the person is certified as an athletic trainer, if the person does not meet the requirements of subdivision (a).

SECTION 1. The Legislature finds and declares the following:
(a) California is one of only three states that does not currently regulate the practice of athletic training. This continued lack of regulation creates the risk that individuals who have lost or are unable to obtain licensure in another state will come to California to practice, thereby putting the public in danger and degrading the standards of the profession as a whole.
(b) There is a pressing and immediate need to regulate the profession of athletic training in order to protect the public health, safety, and welfare. This need is particularly important because athletic trainers often work with school age children.
SEC. 2. Chapter 5.8 (commencing with Section 2697.2) is added to Division 2 of the Business and Professions Code, to read:

CHAPTER 5.8. ATHLETIC TRAINERS

each member of the committee shall receive per diem and expenses as provided in Section 103.
(f) This section shall remain in effect only until January 1, 2018, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2018, deletes or extends that date. The repeal of this section renders the committee subject to the review required by Article 7.5 (commencing with Section 9147.7) of the Government Code.

2697.10. (a) The committee shall adopt, repeal, and amend regulations as may be necessary to enable it to carry into effect the provisions of this chapter. All regulations shall be in accordance with the provisions of this chapter.

2697.13. The committee shall issue a license to an applicant who satisfies the requirements described in Section 2697.12 and pays a license fee, as described in Section 2697.16:

2697.14. A license issued by the committee pursuant to Section 2697.12 shall be valid for two years and thereafter shall be subject to the renewal requirements described in Sections 2697.16 and 2697.18.

2697.16. (a) Each applicant for licensure shall pay a nonrefundable application and processing fee, to be fixed as described in subdivision (b), at the time the application is filed:

(b) The application and processing fee shall be fixed by the committee by May 1 of each year, to become effective on July 1 of that year. LEGISLATIVE COUNSEL'S DIGEST

AB 386, as amended, Galgiani. Prisons: telehealth systems.

Existing law, the Telemedicine Development Act of 1996, regulates the practice of telemedicine, defined as the practice of health care delivery, diagnosis, consultation, treatment, transfer of medical data, and education using interactive audio, video, or data communications, by a health care practitioner, as defined. Existing law establishes that it is the intent of the Legislature that the Department of Corrections and Rehabilitation operate in the most cost-effective and efficient manner possible when purchasing health care services for inmates.

This bill would state the Legislature’s findings and declarations on the use of telehealth in the state’s prisons. This bill would require the department, by January 1, 2013, to include protocols within its existing guidelines for determining when telehealth services are appropriate, and would require the department to require an operational telehealth services program at all adult institutions by January 1, 2016. The bill would require the department to schedule a patient for an evaluation with a distant physician when it is determined to be medically necessary, and would allow the department to use telehealth only when it is in the
best interest of the health and safety of the inmate patient. The bill would require the department to ensure that telehealth not be used to supplant civil service physicians and dentists.

The bill would require the department to report to the Legislature, as provided, by March 1, 2013, and every year thereafter, regarding the department’s implementation of statewide telehealth services. This bill would render this reporting requirement inoperative on March 1, 2018.

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) It is the intent of the Legislature to require the Department of Corrections and Rehabilitation to implement and maintain the use of telehealth in state prisons.

(b) Telehealth improves inmates’ access to health care by enabling correctional systems to expand their provider network to include physicians located outside the immediate vicinity of prisons, particularly for inmates housed in remote areas of the state with shortages of health care.

(c) The department’s prison telehealth program began in 1997 as a pilot project for mental health inmates at Pelican Bay State Prison and was successful at improving inmates' access to mental health care. Accordingly, the department decided to expand the program to provide mental health as well as medical specialty services at other prisons. Currently, all of the state prisons are equipped to provide basic telehealth services.

SEC. 2. Section 5023.3 is added to the Penal Code, to read:

5023.3. (a) In order to maximize the benefits that come with the use of telehealth in the state’s prisons, the department shall do all of the following:

(1) By January 1, 2013, include within the department’s existing guidelines, protocols for determining when telehealth services are medically appropriate and in the best interest of the health and safety of the inmate patient.

(2) Require, by January 1, 2016, an operational telehealth services program at all adult institutions within the department. The program shall include all of the following:
(A) Specific goals and objectives for maintaining and expanding services and encounters provided by the telehealth services program, including store and forward telehealth technology.

(B) An information technology support infrastructure that will allow telehealth to be used at each adult prison.

(C) Specific guidelines for determining when and where telehealth would be the preferred delivery method for health care.

(D) Guidelines and protocols for appropriate use and expansion of store and forward telehealth technology in state prisons. For purposes of this section, “store and forward telehealth” means the transmission of medical information to be reviewed at a later time and at a distant site by a physician without the patient being present.

(3) Schedule a patient for evaluation with a distant physician via telehealth if and when it is determined that it is medically necessary.

(4) Utilize telehealth only when it is in the best interest of the health and safety of the inmate patient.

(5) Ensure that telehealth shall not be used to supplant civil service physician and dental positions.

(b) (1) On March 1, 2013, and each March 1 thereafter, the department shall report all of the following to the Joint Legislative Budget Committee, the Assembly Committee on Appropriations, the Assembly Committee on Budget, the Assembly Committee on Health, the Assembly Committee on Public Safety, the Senate Committee on Appropriations, the Senate Committee on Budget and Fiscal Review, the Senate Committee on Health, and the Senate Committee on Public Safety:

(A) The extent to which the department achieved the objectives developed pursuant to this section, as well as the most significant reasons for achieving or not achieving those objectives.

(B) The extent to which the department is operating a statewide telehealth services program, as set forth in this section, that provides telehealth services to every adult prison within the department, as well as the most significant reasons for achieving or not achieving that objective.

(C) A description of planned and implemented initiatives necessary to accomplish the next 12 months' objectives for achieving the goals developed pursuant to this section.
(2) The requirement for submitting a report imposed under this subdivision is inoperative on March 1, 2018, pursuant to Section 10231.5 of the Government Code.

(c) As used in this section, "telehealth" is defined as the mode of delivering health care services and public health via information and communication technologies to facilitate the diagnosis, consultation, treatment, education, care management, and self-management of a patient's health care while the patient is at the originating site and the health care provider is at a distant site. Telehealth facilitates patient self-management and caregiver support for patients and includes synchronous interactions and asynchronous store and forward transfers.
An act to amend Section 56.36 of the Civil Code, relating to health care information.

LEGISLATIVE COUNSEL'S DIGEST

AB 439, as amended, Skinner. Health care information.

Existing law, the Confidentiality of Medical Information Act (CMIA), prohibits a health care provider, a contractor, or a health care service plan from disclosing medical information, as defined, regarding a patient of the provider or an enrollee or subscriber of the health care service plan without first obtaining an authorization, except as specified. In addition to other remedies available, existing law authorizes an individual to bring an action against any person or entity who has negligently released his or her confidential records in violation of those provisions for nominal damages of $1,000.

This bill would specify that, in an action brought on or after January 1, 2012, a court may not award nominal damages if the defendant establishes specified factors as an affirmative defense, including, but not limited to, that it is a covered entity, as defined, and has complied with any obligations to notify persons entitled to receive notice regarding the release of the information. The bill would also make a technical, nonsubstantive change.

to exceed two hundred fifty thousand dollars ($250,000) per

in this subdivision shall be construed to limit the liability of a
health care service plan, a contractor, or a provider of health care

LEGISLATIVE COUNSEL'S DIGEST

AB 518, as amended, Wagner. Elder and dependent adult abuse: mandated reporters.

Existing law, the Elder Abuse and Dependent Adult Civil Protection Act, establishes procedures for the reporting, investigation, and prosecution of elder and dependent adult abuse, including, but not limited to financial abuse, as defined. These procedures require persons, defined as mandated reporters, to report known or suspected instances of elder or dependent adult abuse. A violation of the reporting requirements by a mandated reporter is a misdemeanor. Existing law, which will be repealed on January 1, 2013, defines who is a mandated reporter of suspected financial abuse of an elder or dependent adult. A violation of the financial abuse reporting requirements is subject to civil penalties.

This bill would delete the January 1, 2013, repeal date and make conforming changes.

The people of the State of California do enact as follows:

(2) (A) Persons who are trained and qualified to serve on multidisciplinary personnel teams may disclose to one another information and records that are relevant to the prevention, identification, or treatment of abuse of elderly or dependent persons.

(B) Except as provided in subparagraph (A), any personnel of the multidisciplinary team or agency that receives information pursuant to this chapter, shall be under the same obligations and subject to the same confidentiality penalties as the person disclosing or providing that information. The information obtained shall be maintained in a manner that ensures the maximum protection of privacy and confidentiality rights.

(c) This section shall not be construed to allow disclosure of any reports or records relevant to the reports of elder or dependent adult abuse if the disclosure would be prohibited by any other provisions of state or federal law applicable to the reports or records relevant to the reports of the abuse.

(d) This section shall become operative on January 1, 2013.

SEC. 5. Section 15634 of the Welfare and Institutions Code, as amended by Section 7 of Chapter 140 of the Statutes of 2005, is amended to read:

15634. (a) No care custodian, clergy member, health practitioner, mandated reporter of suspected financial abuse of an elder or dependent adult, or employee of an adult protective services agency or a local law enforcement agency who reports a known or suspected instance of abuse of an elder or dependent adult shall be civilly or criminally liable for any report required or authorized by this article. Any other person reporting a known or suspected instance of abuse of an elder or dependent adult shall not incur civil or criminal liability as a result of any report authorized by this article, unless it can be proven that a false report was made and the person knew that the report was false. No person required to make a report pursuant to this article, or any person taking photographs at his or her discretion, shall incur any civil or criminal liability for taking photographs of a suspected victim of abuse of an elder or dependent adult or causing photographs to be taken of such a suspected victim or for disseminating the photographs with the reports required by this article. However, this section shall not be construed to grant immunity from this liability with respect to any other use of the photographs.
(b) No care custodian, clergy member, health practitioner, mandated reporter of suspected financial abuse of an elder or dependent adult, or employee of an adult protective services agency or a local law enforcement agency who, pursuant to a request from an adult protective services agency or a local law enforcement agency investigating a report of known or suspected abuse of an elder or dependent adult, provides the requesting agency with access to the victim of a known or suspected instance of abuse of an elder or dependent adult, shall incur civil or criminal liability as a result of providing that access.

(c) The Legislature finds that, even though it has provided immunity from liability to persons required to report abuse of an elder or dependent adult, immunity does not eliminate the possibility that actions may be brought against those persons based upon required reports of abuse. In order to further limit the financial hardship that those persons may incur as a result of fulfilling their legal responsibilities, it is necessary that they not be unfairly burdened by legal fees incurred in defending those actions. Therefore, a care custodian, clergy member, health practitioner, or an employee of an adult protective services agency or a local law enforcement agency may present to the State Board of Control California Victim Compensation and Government Claims Board a claim for reasonable attorneys' fees incurred in any action against that person on the basis of making a report required or authorized by this article if the court has dismissed the action upon a demurrer or motion for summary judgment made by that person, or if he or she prevails in the action. The State Board of Control California Victim Compensation and Government Claims Board shall allow that claim if the requirements of this subdivision are met, and the claim shall be paid from an appropriation to be made for that purpose. Attorneys' fees awarded pursuant to this section shall not exceed an hourly rate greater than the rate charged by the Attorney General at the time the award is made and shall not exceed an aggregate amount of fifty thousand dollars ($50,000). This subdivision shall not apply if a public entity has provided for the defense of the action pursuant to Section 995 of the Government Code.

(d) This section shall remain in effect only until January 1, 2013, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2013, deletes or extends that date.
SEC. 6. Section 15634 of the Welfare and Institutions Code, as amended by Section 711 of Chapter 538 of the Statutes of 2006, is repealed.

15634. (a) No care custodian, clergy member, health practitioner, or employee of an adult protective services agency or a local law enforcement agency who reports a known or suspected instance of elder or dependent adult abuse shall be civilly or criminally liable for any report required or authorized by this article. Any other person reporting a known or suspected instance of elder or dependent adult abuse shall not incur civil or criminal liability as a result of any report authorized by this article, unless it can be proven that a false report was made and the person knew that the report was false. No person required to make a report pursuant to this article, or any person taking photographs at his or her discretion, shall incur any civil or criminal liability for taking photographs of a suspected victim of elder or dependent adult abuse or causing photographs to be taken of the suspected victim or for disseminating the photographs with the reports required by this article. However, this section shall not be construed to grant immunity from this liability with respect to any other use of the photographs.

(b) No care custodian, clergy member, health practitioner, or employee of an adult protective services agency or a local law enforcement agency who, pursuant to a request from an adult protective services agency or a local law enforcement agency investigating a report of known or suspected elder or dependent adult abuse, provides the requesting agency with access to the victim of a known or suspected instance of elder or dependent adult abuse, shall not incur civil or criminal liability as a result of providing that access.

(c) The Legislature finds that, even though it has provided immunity from liability to persons required to report elder or dependent adult abuse, immunity does not eliminate the possibility that actions may be brought against those persons based upon required reports of abuse. In order to further limit the financial hardship that those persons may incur as a result of fulfilling their legal responsibilities, it is necessary that they not be unfairly burdened by legal fees incurred in defending those actions. Therefore, a care custodian, clergy member, health practitioner, or employee of an adult protective services agency or a local law enforcement agency who, pursuant to a request from an adult protective services agency or a local law enforcement agency investigating a report of known or suspected elder or dependent adult abuse, provides the requesting agency with access to the victim of a known or suspected instance of elder or dependent adult abuse, shall not incur civil or criminal liability as a result of providing that access.

enforcement agency may present to the California Victim Compensation and Government Claims Board a claim for reasonable attorney's fees incurred in any action against that person on the basis of making a report required or authorized by this article if the court has dismissed the action upon a demurrer or motion for summary judgment made by that person, or if he or she prevails in the action. The California Victim Compensation and Government Claims Board shall allow that claim if the requirements of this subdivision are met, and the claim shall be paid from an appropriation to be made for that purpose. SEC. 7. Section 15640 of the Welfare and Institutions Code, as amended by Section 9 of Chapter 140 of the Statutes of 2005, is amended to read:

15640. (a) (1) An adult protective services agency shall immediately, or as soon as practically possible, report by telephone to the law enforcement agency having jurisdiction over the case any known or suspected instance of criminal activity, and to any public agency given responsibility for investigation in that jurisdiction of cases of elder and dependent adult abuse, every known or suspected instance of abuse pursuant to Section 15630 or 15630.1 of an elder or dependent adult. A county adult protective services agency shall also send a written report thereof within two working days of receiving the information concerning the incident to each agency to which it is required to make a telephone report under this subdivision. Prior to making any cross-report of allegations of financial abuse to law enforcement agencies, an adult protective services agency shall first determine whether there is reasonable suspicion of any criminal activity.

(2) If an adult protective services agency receives a report of abuse alleged to have occurred in a long-term care facility, that adult protective services agency shall immediately inform the person making the report that he or she is required to make the report to the long-term care ombudsman program or to a local law
enforcement agency. The adult protective services agency shall not accept the report by telephone but shall forward any written report received to the long-term care ombudsman.

(b) If an adult protective services agency or local law enforcement agency or ombudsman program receiving a report of known or suspected elder or dependent adult abuse determines, pursuant to its investigation, that the abuse is being committed by a health practitioner licensed under Division 2 (commencing with Section 500) of the Business and Professions Code, or any related initiative act, or by a person purporting to be a licensee, the adult protective services agency or local law enforcement agency or ombudsman program shall immediately, or as soon as practically possible, report this information to the appropriate licensing agency. The licensing agency shall investigate the report in light of the potential for physical harm. The transmittal of information to the appropriate licensing agency shall not relieve the adult protective services agency or local law enforcement agency or ombudsman program of the responsibility to continue its own investigation as required under applicable provisions of law. The information reported pursuant to this paragraph shall remain confidential and shall not be disclosed.

(c) A local law enforcement agency shall immediately, or as soon as practically possible, report by telephone to the long-term care ombudsman program when the abuse is alleged to have occurred in a long-term care facility or to the county adult protective services agency when it is alleged to have occurred anywhere else, and to the agency given responsibility for the investigation of cases of elder and dependent adult abuse every known or suspected instance of abuse of an elder or dependent adult. A local law enforcement agency shall also send a written report thereof within two working days of receiving the information concerning the incident to any agency to which it is required to make a telephone report under this subdivision.

(d) A long-term care ombudsman coordinator may report the instance of abuse to the county adult protective services agency or to the local law enforcement agency for assistance in the investigation of the abuse if the victim gives his or her consent. A long-term care ombudsman program and the Licensing and Certification Division of the State Department of Public Health shall immediately report by telephone and in writing
within two working days to the bureau any instance of neglect occurring in a health care facility, that has seriously harmed any patient or reasonably appears to present a serious threat to the health or physical well-being of a patient in that facility. If a victim or potential victim of the neglect withholds consent to being identified in that report, the report shall contain circumstantial information about the neglect but shall not identify that victim or potential victim and the bureau and the reporting agency shall maintain the confidentiality of the report until the report becomes a matter of public record.

(e) When a county adult protective services agency, a long-term care ombudsman program, or a local law enforcement agency receives a report of abuse, neglect, or abandonment of an elder or dependent adult alleged to have occurred in a long-term care facility, that county adult protective services agency, long-term care ombudsman coordinator, or local law enforcement agency shall report the incident to the licensing agency by telephone as soon as possible.

(f) County adult protective services agencies, long-term care ombudsman programs, and local law enforcement agencies shall report the results of their investigations of referrals or reports of abuse to the respective referring or reporting agencies.

(g) This section shall remain in effect only until January 1, 2013; and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2013, deletes or extends that date.

SEC. 8. Section 15640 of the Welfare and Institutions Code, as added by Section 10 of Chapter 140 of the Statutes of 2005, is repealed.

15640. (a) (1) An adult protective services agency shall immediately, or as soon as practically possible, report by telephone to the law enforcement agency having jurisdiction over the case any known or suspected instance of criminal activity, and to any public agency given responsibility for investigation in that jurisdiction of cases of elder and dependent adult abuse, every known or suspected instance of abuse pursuant to Section 15630 of an elder or dependent adult. A county adult protective services agency shall also send a written report thereof within two working days of receiving the information concerning the incident to each agency to which it is required to make a telephone report under this subdivision. Prior to making any cross-report of allegations
of financial abuse to law enforcement agencies; an adult protective
services agency shall first determine whether there is reasonable
suspicion of any criminal activity.

(2) If an adult protective services agency receives a report of
abuse alleged to have occurred in a long-term care facility; that
adult protective services agency shall immediately inform the
person making the report that he or she is required to make the
report to the long-term care ombudsman program or to a local law
enforcement agency. The adult protective services agency shall
not accept the report by telephone but shall forward any written
report received to the long-term care ombudsman.

(b) If an adult protective services agency or local law
enforcement agency or ombudsman program receiving a report of
known or suspected elder or dependent adult abuse determines;
pursuant to its investigation, that the abuse is being committed by
a health practitioner licensed under Division 2 (commencing with
Section 500) of the Business and Professions Code, or any related
initiative act, or by a person purporting to be a licensee, the adult
protective services agency or local law enforcement agency or
ombudsman program shall immediately, or as soon as practically
possible, report this information to the appropriate licensing
agency. The licensing agency shall investigate the report in light
of the potential for physical harm. The transmittal of information
to the appropriate licensing agency shall not relieve the adult
protective services agency or local law enforcement agency or
ombudsman program of the responsibility to continue its own
investigation as required under applicable provisions of law. The
information reported pursuant to this paragraph shall remain
confidential and shall not be disclosed.

(c) A local law enforcement agency shall immediately, or as
soon as practicably possible, report by telephone to the long-term
care ombudsman program when the abuse is alleged to have
occurred in a long-term care facility or to the county adult
protective services agency when it is alleged to have occurred
anywhere else, and to the agency given responsibility for the
investigation of cases of elder and dependent adult abuse every
known or suspected instance of abuse of an elder or dependent
adult. A local law enforcement agency shall also send a written
report thereof within two working days of receiving the information
concerning the incident to any agency to which it is required to
make a telephone report under this subdivision:
(d) A long-term care ombudsman coordinator may report the
instance of abuse to the county adult protective services agency
or to the local law enforcement agency for assistance in the
investigation of the abuse if the victim gives his or her consent. A
long-term care ombudsman program and the Licensing and
Certification Division of the State Department of Health Services
shall immediately report by telephone and in writing within two
working days to the bureau any instance of neglect occurring in a
health care facility, that has seriously harmed any patient or
reasonably appears to present a serious threat to the health or
physical well-being of a patient in that facility. If a victim or
potential victim of the neglect withholds consent to being identified
in that report, the report shall contain circumstantial information
about the neglect but shall not identify that victim or potential
victim and the bureau and the reporting agency shall maintain the
confidentiality of the report until the report becomes a matter of
public record.
(e) When a county adult protective services agency, a long-term
care ombudsman program, or a local law enforcement agency
receives a report of abuse, neglect, or abandonment of an elder or
dependent adult alleged to have occurred in a long-term care
facility, that county adult protective services agency, long-term
care ombudsman coordinator, or local law enforcement agency
shall report the incident to the licensing agency by telephone as
soon as possible:
(f) County adult protective services agencies, long-term care
ombudsman programs, and local law enforcement agencies shall
report the results of their investigations of referrals or reports of
abuse to the respective referring or reporting agencies.
(g) This section shall become operative on January 1, 2013.

(d) Instructions on how to report known or suspected incidents of abuse and neglect, including the appropriate telephone numbers to call and what types of information would assist the county adult protective services agency with its investigation of the report.

(e) This section shall remain in effect only until January 1, 2013; and as of that date it is repealed, unless a later enacted statute, that is enacted before January 1, 2013, deletes or extends that date.

An act to add Section 11564.10 to the Government Code, relating to boards and commissions.

LEGISLATIVE COUNSEL'S DIGEST

AB 800, as introduced, Huber. Boards and commissions: time reporting.

Existing law establishes various boards and commissions within state government. Existing law sets forth various standards and procedures that govern the amount of salary or per diem expenses that a member of a board or commission may earn or claim.

This bill would require that a member of a board or commission that meets specified requirements submit a quarterly report to the chair of the board or commission that details the time worked by the member fulfilling the duties of his or her position. This bill would also require that the chair of the board or commission submit a quarterly report to specified committees of the Legislature that contains copies of all of the time reports received by the chair.

The people of the State of California do enact as follows:

SECTION 1. Section 11564.10 is added to the Government Code, to read:
11564.10. (a) Notwithstanding any other law, a member of a board or commission that meets the requirements set out in subdivision (c) shall submit a quarterly report to the chair of that board or commission that details the time worked by the member fulfilling the duties of his or her position. The time worked shall be reported in increments of hours and tenths of hours.

(b) Notwithstanding Section 10231.5, the chair of the board or commission shall submit a quarterly report to the Senate Committee on Rules, the Assembly Committee on Rules, and any policy committee of the Legislature that has jurisdiction over the board or commission that contains copies of the reports received by the chair pursuant to subdivision (c) for the past quarter.

(c) This section shall apply to a member of a board or commission that meets all of the following requirements:

LEGISLATIVE COUNSEL’S DIGEST

AB 958, as introduced, Bill Berryhill. Regulatory boards: limitations periods.
Existing law provides for the licensure and regulation of various professions and vocations by boards within the Department of Consumer Affairs. Existing law requires these boards to file disciplinary action accusations against licensees for various violations within a specified limitations period particular to each board.
This bill would delete those specified limitations periods for each board and would instead impose a specified limitations period on all boards within the Department of Consumer Affairs.

The people of the State of California do enact as follows:

SECTION 1. Section 110.5 is added to the Business and Professions Code, to read:

110.5. (a) Notwithstanding any other provision of law and except as provided in subdivisions (b) and (c), any accusation filed
against a licensee of a board described in Section 101, pursuant to
Section 11503 of the Government Code, shall be filed within one
year after the board discovers the act or omission alleged as the
ground for disciplinary action, or within four years after the act or
omission alleged as the ground for disciplinary action occurs,
whichever occurs first.
(b) If an alleged act or omission involves a minor, the four-year
limitations period provided for by subdivision (a) shall be tolled
until the minor reaches the age of majority.
(c) If a licensee intentionally conceals evidence of wrongdoing,
the four-year limitations period provided for by subdivision (a)
shall be tolled during that period of concealment.
SEC. 2. Section 1670.2 of the Business and Professions Code
is repealed.
1670.2. (a) Except as otherwise provided in this section, any
proceeding initiated by the board against a licensee for the violation
of any provision of this chapter shall be filed within three years
after the board discovers the act or omission alleged as the ground
for disciplinary action, or within seven years after the act or
omission alleged as the ground for disciplinary action occurs,
whichever occurs first:
(b) An accusation filed against a licensee pursuant to Section
11503 of the Government Code alleging fraud or willful
misrepresentation is not subject to the limitation in subdivision
(a):
(c) An accusation filed against a licensee pursuant to Section
11503 of the Government Code alleging unprofessional conduct
based on incompetence, gross negligence, or repeated negligent
acts of the licensee is not subject to the limitation in subdivision
(a) upon proof that the licensee intentionally concealed from
discovery his or her incompetence, gross negligence, or repeated
negligent acts:
(d) If an alleged act or omission involves any conduct described
in subdivision (c) of Section 1680 committed on a minor, the
seven-year limitations period in subdivision (a) and the 10-year
limitations period in subdivision (c) shall be tolled until the minor
reaches the age of majority:
(e) An accusation filed against a licensee pursuant to Section
11503 of the Government Code alleging conduct described in
subdivision (c) of Section 1680 not committed on a minor shall

A bill to be entitled an act relating to professional and vocational licenses.

LEGISLATIVE COUNSEL’S DIGEST

AB 1003, as introduced, Smyth. Professional and vocational licenses.

Under existing law, boards within the Department of Consumer Affairs are responsible for the licensure and regulation of various professions and vocations. Existing law also provides for the licensure, registration, and regulation of clinical laboratories and various clinical laboratory personnel by the State Department of Public Health.

This bill would declare the intent of the Legislature to enact legislation that would require that all professional and vocational licenses currently issued by the Department of Consumer Affairs and its affiliate boards, and specified licenses issued by the State Department of Public Health, be issued from one central location and that the current regulatory, oversight, and enforcement authority with respect to holders of those licenses remain with those boards and the department currently performing those functions.

The people of the State of California do enact as follows:

1. SECTION 1. It is the intent of the Legislature to enact legislation that would require that all professional and vocational licenses currently issued by the Department of Consumer Affairs
and its affiliate boards, bureaus, and commissions, and those licenses issued by the State Department of Public Health pursuant to Chapter 3 (commencing with Section 1200) of Division 2 of the Business and Professions Code be issued from one central location. It is also the intent of the Legislature that the current regulatory, oversight, and enforcement authority with respect to holders of those licenses remain with those boards, bureaus, and commissions and the department currently performing those functions.
SENATE BILL No. 399

Introduced by Senator Huff

February 16, 2011

An act to amend Section 651 of the Business and Professions Code, relating to healing arts.

LEGISLATIVE COUNSEL'S DIGEST

SB 399, as introduced, Huff. Healing arts: advertising.

Existing law provides for the licensure and regulation of the practice of various healing arts practitioners by boards under the Department of Consumer Affairs. Existing law makes it unlawful for those practitioners to disseminate a false, fraudulent, misleading, or deceptive statement and defines those terms for its purposes.

This bill would make technical, nonsubstantive changes to those provisions.

The people of the State of California do enact as follows:

SECTION 1. Section 651 of the Business and Professions Code is amended to read:

651. (a) It is unlawful for any person licensed under this division or under any initiative act referred to in this division to disseminate or cause to be disseminated any form of public communication containing a false, fraudulent, misleading, or deceptive statement, claim, or image for the purpose of or likely to induce, directly or indirectly, the rendering of professional services or furnishing of products in connection with the professional practice or business for which he or she is licensed.
A “public communication” as used in this section includes, but is not limited to, communication by means of mail, television, radio, motion picture, newspaper, book, list or directory of healing arts practitioners, Internet, or other electronic communication.

(b) A false, fraudulent, misleading, or deceptive statement, claim, or image includes a statement or claim that does any of the following:

(1) Contains a misrepresentation of fact.

(2) Is likely to mislead or deceive because of a failure to disclose material facts.

(3) (A) Is intended, or is likely, to create false or unjustified
expectations of favorable results, including the use of any photograph or other image that does not accurately depict the results of the procedure being advertised or that has been altered in any manner from the image of the actual subject depicted in the photograph or image.

(B) Use of any photograph or other image of a model without clearly stating in a prominent location in easily readable type the fact that the photograph or image is of a model is a violation of subdivision (a). For purposes of this paragraph, a model is anyone other than an actual patient, who has undergone the procedure being advertised, of the licensee who is advertising for his or her services.

(C) Use of any photograph or other image of an actual patient that depicts or purports to depict the results of any procedure, or presents “before” and “after” views of a patient, without specifying in a prominent location in easily readable type size what procedures were performed on that patient is a violation of subdivision (a). Any “before” and “after” views (i) shall be comparable in presentation so that the results are not distorted by favorable poses, lighting, or other features of presentation, and (ii) shall contain a statement that the same “before” and “after” results may not occur for all patients.

(4) Relates to fees, other than a standard consultation fee or a range of fees for specific types of services, without fully and specifically disclosing all variables and other material factors.

(5) Contains other representations or implications that in reasonable probability will cause an ordinarily prudent person to misunderstand or be deceived.
(6) Makes a claim either of professional superiority or of performing services in a superior manner, unless that claim is relevant to the service being performed and can be substantiated with objective scientific evidence.

(7) Makes a scientific claim that cannot be substantiated by reliable, peer reviewed, published scientific studies.

(8) Includes any statement, endorsement, or testimonial that is likely to mislead or deceive because of a failure to disclose material facts.

(c) Any price advertisement shall be exact, without the use of phrases, including, but not limited to, “as low as,” “and up,” “lowest prices,” or words or phrases of similar import. Any advertisement that refers to services, or costs for services, and that uses words of comparison shall be based on verifiable data substantiating the comparison. Any person so advertising shall be prepared to provide information sufficient to establish the accuracy of that comparison. Price advertising shall not be fraudulent, deceitful, or misleading, including statements or advertisements of bait, discount, premiums, gifts, or any statements of a similar nature. In connection with price advertising, the price for each product or service shall be clearly identifiable. The price advertised for products shall include charges for any related professional services, including dispensing and fitting services, unless the advertisement specifically and clearly indicates otherwise.

(d) Any person so licensed shall not compensate or give anything of value to a representative of the press, radio, television, or other communication medium in anticipation of, or in return for, professional publicity unless the fact of compensation is made known in that publicity.

(e) Any person so licensed may not use any professional card, professional announcement card, office sign, letterhead, telephone directory listing, medical list, medical directory listing, or a similar professional notice or device if it includes a statement or claim that is false, fraudulent, misleading, or deceptive within the meaning of subdivision (b).

(f) Any person so licensed who violates this section is guilty of a misdemeanor. A bona fide mistake of fact shall be a defense to this subdivision, but only to this subdivision.
(g) Any violation of this section by a person so licensed shall constitute good cause for revocation or suspension of his or her license or other disciplinary action.

(h) Advertising by any person so licensed may include the following:

(1) A statement of the name of the practitioner.

(2) A statement of addresses and telephone numbers of the offices maintained by the practitioner.

(i) For the purposes of this section, a dentist licensed under Chapter 4 (commencing with Section 1600) may not hold himself or herself out as a specialist, or advertise membership in or specialty recognition by an accrediting organization, unless the practitioner has completed a specialty education program approved by the American Dental Association and the Commission on Dental Accreditation, is eligible for examination by a national specialty board recognized by the American Dental Association, or is a diplomate of a national specialty board recognized by the American Dental Association.

(ii) A dentist licensed under Chapter 4 (commencing with Section 1600) shall not represent to the public or advertise accreditation either in a specialty area of practice or by a board not meeting the requirements of clause (i) unless the dentist has attained membership in or otherwise been credentialed by an accrediting organization that is recognized by the board as a bona fide organization for that area of dental practice. In order to be recognized by the board as a bona fide accrediting organization for a specific area of dental practice other than a specialty area of dentistry authorized under clause (i), the organization shall condition membership or credentialing of its members upon all of the following:

(l) Successful completion of a formal, full-time advanced education program that is affiliated with or sponsored by a
university based dental school and is beyond the dental degree at
a graduate or postgraduate level.

(II) Prior didactic training and clinical experience in the specific
area of dentistry that is greater than that of other dentists.

(III) Successful completion of oral and written examinations
based on psychometric principles.

(iii) Notwithstanding the requirements of clauses (i) and (ii), a
dentist who lacks membership in or certification, diplomate status,
other similar credentials, or completed advanced training approved
as bona fide either by an American Dental Association recognized
accrediting organization or by the board, may announce a practice
emphasis in any other area of dental practice only if the dentist
incorporates in capital letters or some other manner clearly
distinguishable from the rest of the announcement, solicitation, or
advertisement that he or she is a general dentist.

(iv) A statement of certification by a practitioner licensed under
Chapter 7 (commencing with Section 3000) shall only include a

(commencing with Section 2000) by the Medical Board of
California may include a statement that he or she limits his or her
practice to specific fields, but shall not include a statement that he

board or parent association, including, but not limited to, a
multidisciplinary board or association, unless that board or
association is (i) an American Board of Medical Specialties
member board, (ii) a board or association with equivalent
requirements approved by that physician and surgeon’s licensing
board, or (iii) a board or association with an Accreditation Council
for Graduate Medical Education approved postgraduate training
program that provides complete training in that specialty or
subspecialty. A physician and surgeon licensed under Chapter 5
(commencing with Section 2000) by the Medical Board of
California who is certified by an organization other than a board
or association referred to in clause (i), (ii), or (iii) shall not use the
term “board certified” in reference to that certification, unless the
physician and surgeon is also licensed under Chapter 4
(commencing with Section 1600) and the use of the term “board
certified” in reference to that certification is in accordance with subparagraph (A). A physician and surgeon licensed under Chapter 5 (commencing with Section 2000) by the Medical Board of California who is certified by a board or association referred to in clause (i), (ii), or (iii) shall not use the term “board certified” unless the full name of the certifying board is also used and given comparable prominence with the term “board certified” in the statement.

(C) A doctor of podiatric medicine licensed under Chapter 5 (commencing with Section 2000) by the Medical Board of California may include a statement that he or she is certified or eligible or qualified for certification by a private or public board or parent association, including, but not limited to, a multidisciplinary board or association, if that board or association meets one of the following requirements: (i) is approved by the Council on Podiatric Medical Education, (ii) is a board or
association with equivalent requirements approved by the California Board of Podiatric Medicine, or (iii) is a board or association with the Council on Podiatric Medical Education approved postgraduate training programs that provide training in podiatric medicine and podiatric surgery. A doctor of podiatric medicine licensed under Chapter 5 (commencing with Section 2000) by the Medical Board of California who is certified by a board or association referred to in clause (i), (ii), or (iii) shall not use the term “board certified” unless the full name of the certifying board is also used and given comparable prominence with the term “board certified” in the statement. A doctor of podiatric medicine licensed under Chapter 5 (commencing with Section 2000) by the Medical Board of California who is certified by an organization other than a board or association referred to in clause (i), (ii), or (iii) shall not use the term “board certified” in reference to that certification.

For purposes of this subparagraph, a “multidisciplinary board or association” means an educational certifying body that has a psychometrically valid testing process, as determined by the California Board of Podiatric Medicine, for certifying doctors of podiatric medicine that is based on the applicant’s education, training, and experience. For purposes of the term “board certified,” as used in this subparagraph, the terms “board” and “association” mean an organization that is a Council on Podiatric Medical Education approved board, an organization with equivalent requirements approved by the California Board of Podiatric Medicine, or an organization with a Council on Podiatric Medical Education approved postgraduate training program that provides training in podiatric medicine and podiatric surgery.

The California Board of Podiatric Medicine shall adopt regulations to establish and collect a reasonable fee from each board or association applying for recognition pursuant to this subparagraph, to be deposited in the State Treasury in the Podiatry Fund, pursuant to Section 2499. The fee shall not exceed the cost of administering this subparagraph.

(17) Any other item of factual information that is not false, fraudulent, misleading, or likely to deceive.
(i) Each of the healing arts boards and examining committees within Division 2 shall adopt appropriate regulations to enforce this section in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.
Each of the healing arts boards and committees within Division 2 shall, by regulation, define those efficacious services to be advertised by businesses or professions under their jurisdiction for the purpose of determining whether advertisements are false or misleading. Until a definition for that service has been issued, no advertisement for that service shall be disseminated. However, if a definition of a service has not been issued by a board or committee within 120 days of receipt of a request from a licensee, all those holding the license may advertise the service. Those boards and committees shall adopt or modify regulations defining what services may be advertised, the manner in which defined services may be advertised, and restricting advertising that would promote the inappropriate or excessive use
of health services or commodities. A board or committee shall not,
by regulation, unreasonably prevent truthful, nondeceptive price
or otherwise lawful forms of advertising of services or
commodities, by either outright prohibition or imposition of
onerous disclosure requirements. However, any member of a board
or committee acting in good faith in the adoption or enforcement
of any regulation shall be deemed to be acting as an agent of the
state.

(j) The Attorney General shall commence legal proceedings in
the appropriate forum to enjoin advertisements disseminated or
about to be disseminated in violation of this section and seek other
appropriate relief to enforce this section. Notwithstanding any
other provision of law, the costs of enforcing this section to the
respective licensing boards or committees may be awarded against
any licensee found to be in violation of any provision of this
section. This shall not diminish the power of district attorneys,
county counsels, or city attorneys pursuant to existing law to seek
appropriate relief.

(k) A physician and surgeon or doctor of podiatric medicine
licensed pursuant to Chapter 5 (commencing with Section 2000)
by the Medical Board of California who knowingly and
intentionally violates this section may be cited and assessed an
administrative fine not to exceed ten thousand dollars ($10,000)
per event. Section 125.9 shall govern the issuance of this citation
and fine except that the fine limitations prescribed in paragraph

An act to amend Section 56502 of, and to add Chapter 4.2 (commencing with Section 56395) to Part 30 of Division 4 of Title 2 of, the Education Code, relating to special education.

LEGISLATIVE COUNSEL’S DIGEST

Existing law requires local educational agencies to initiate, and individualized education program teams to conduct, meetings for the purposes of developing, reviewing, and revising the individualized education program of each individual with exceptional needs, as specified. Existing law also provides that it is the intent of the Legislature that parties to special education disputes be encouraged to seek resolution through mediation in a nonadversarial atmosphere, which may not be attended by attorneys or other independent contractors used to provide legal advocacy services, prior to filing a request for a due process hearing. Existing law provides, however, that this does not preclude the parent or public agency from being accompanied and advised by nonattorney representatives in mediation conferences.
This bill would require authorize a special education local plan area, collectively, and in collaboration with the State Department of Education, to develop a voluntary special education advocate certification program for persons who would participate, upon the invitation of a parent, as a member of a pupil's individualized education program team, or, upon the invitation of a parent, in a mediation conference, as specified. The bill would authorize a special education local plan area to provide alternative dispute resolution training, and require the Office of Administrative Hearings Board of Behavioral Sciences to administer a test, to persons seeking certification, as specified. The bill would also require the Office of Administrative Hearings Board of Behavioral Sciences to certify, and maintain a registry of, persons who have successfully passed the test and completed the training. The bill would require a certified special education advocate to disclose his or her relationship to the pupil or his or her parents, as specified. Because the bill would require local educational agencies to perform additional duties, the bill would impose a state-mandated local program.

Existing law provides that upon receipt by the Superintendent of Public Instruction of a written request for a due process hearing regarding a proposal or refusal to initiate or change the identification, assessment, or educational placement of a child with exceptional needs, the provision of a free appropriate public education to the child, or the availability of a program appropriate for the child, including the question of financial responsibility, from the parent or guardian or public agency, the Superintendent or his or her designee or designees immediately shall notify, in writing, all parties and provide them with a list of persons and organizations within the geographical area that can provide free or reduced cost representation or other assistance in preparing for the due process hearing. Existing law provides that the Superintendent or his or her designee shall have complete discretion in determining which individuals or groups shall be included on the list.

This bill would require the Superintendent or his or her designee to certify that the listed persons, including certified special education advocates, or organizations provide services for free or at a reduced cost.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.
This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

State-mandated local program: yes-no.

The people of the State of California do enact as follows:

LEGISLATIVE COUNSEL'S DIGEST

SB 544, as amended, Price. Professions and vocations: regulatory boards.

(1) Existing law provides for the licensure and regulation of profession and vocation licensees by various boards within the Department of Consumer Affairs. Within the department, there are healing arts boards and nonhealing arts boards. The department is under the control of the Director of Consumer Affairs.

This bill would require cooperation between state agencies and all boards within the department when investigating a licensee, and would require a state agency to provide to the board all licensee records in the custody of the state agency. The bill would require all local and state law enforcement agencies, state and local governments, state agencies, licensed health care facilities, and any employers of any licensee to provide licensee records to any board within the department upon request by that board, and would make an additional requirement specific to the Department of Justice. By imposing additional duties on local agencies, the bill would impose a state-mandated local program: the Department of Justice to serve or submit to a healing arts board for service accusations and default decisions within a specified timeframe and would also require the Department of Justice to set a hearing within a specified timeframe upon receiving a notice of defense, except as specified.

The bill would prohibit a licensee regulated by a board within the department from including certain provisions in an agreement to settle a civil litigation action arising from his or her practice, as specified.

(2) Existing law authorizes the director to audit and review, among other things, inquiries and complaints regarding licensees, dismissals of disciplinary cases, and discipline short of formal accusation by the Medical Board of California and the California Board of Podiatric Medicine.
This bill would additionally authorize the director or his or her
designee to audit and review the aforementioned activities by any of
the healing arts boards.

Existing law authorizes the director to employ investigators,
inspectors, and deputies as are necessary to investigate and prosecute
all violations of any law, the enforcement of which is charged to the
department, or to any board in the department. Inspectors used by the
boards are not required to be employees of the Division of Investigation,
but may be employees of, or under contract to, the boards.

This bill would authorize healing arts boards to employ investigators
who are not employees of the Division of Investigation, and would
authorize those boards to contract for investigative services provided
by the Department of Justice. The bill would also establish within the
Division of Investigation the Health Quality Enforcement Unit to
provide investigative services for healing arts proceedings.

The bill would require all healing arts boards within the department
to report annually, by October 1, to the department and the Legislature
certain information, including, but not limited to, the total number of
complaints closed or resolved without discipline, the total number of
complaints and reports referred for formal investigation, and the total
number of accusations filed and the final disposition of accusations
through the board and court review, respectively.

The bill would also provide that it is an act of unprofessional conduct
for any licensee of a healing arts board to fail to furnish information in
a timely manner to the board or the board’s investigators, or to fail to
cooperate and participate in any disciplinary investigation pending
against him or her, except as specified.

Existing law requires a physician and surgeon, osteopathic physician
and surgeon, and a doctor of podiatric medicine to report to his or her
respective board when there is an indictment or information charging
a felony against the licensee or he or she has been convicted of a felony
or misdemeanor.

This bill would expand that requirement to a licensee of any healing
arts board, as specified, and would further require a report when
disciplinary action is taken against a licensee by another healing arts
board or by a healing arts board of another state or an agency of the
federal government.

Existing law requires the district attorney, city attorney, and other
prosecuting agencies to notify the Medical Board of California, the
Osteopathic Medical Board of California, the California Board of
Podiatric Medicine, the State Board of Chiropractic Examiners, and other allied health boards and the court clerk if felony charges have been filed against one of the board’s licensees. Existing law also requires, within 10 days after a court judgment, the clerk of the court to report to the appropriate board when a licentiate has committed a crime or is liable for any death or personal injury resulting in a specified judgment. Existing law also requires the clerk of the court to transmit to certain boards specified felony preliminary transcript hearings concerning a defendant licensee.

The bill would instead make those provisions applicable to all healing arts boards. By imposing additional duties on these local agencies, the bill would impose a state-mandated local program.

The bill would require a healing arts board, the State Board of Chiropractic Examiners, and the Osteopathic Medical Board of California to query the federal National Practitioner Data Bank prior to, among other things, granting a license to an applicant who is currently residing in another state or granting a petition for reinstatement of a revoked or surrendered license.

This bill would make it a crime to engage in the practice of certain healing arts without a current and valid license, except as specified; or to fraudulently buy, sell, or obtain such a license to practice certain healing arts. By creating new crimes, the bill would impose a state-mandated local program.

(3) Under existing law, healing arts licensees are regulated by various healing arts boards within the department. These boards are authorized to issue, deny, suspend, and revoke licenses based on various grounds and to take disciplinary action against a licensee for the failure to comply with their laws and regulations. Existing law requires or authorizes a board to appoint an executive officer to, among other things, perform duties delegated by the board.

This bill would authorize a healing arts board to delegate to its executive officer, where an administrative action has been filed by the board to revoke the license of a licensee and the licensee has failed to file a notice of defense or appear at the hearing, the authority to adopt a proposed default decision. The bill would also authorize a healing arts board to enter into a settlement with a licensee or applicant in lieu of the issuance of an accusation or statement of issues against the licensee or applicant.

The bill would also provide that the license of a licensee of a healing arts board shall be suspended if the licensee is incarcerated after the
conviction of a felony and would require the board to notify the licensee of the suspension and of his or her right to a specified hearing. The bill would specify that no hearing is required, however, if the conviction was for a violation of federal law or state law for the use of dangerous drugs or controlled substances or specified sex offenses; a violation for the use of dangerous drugs or controlled substances would also constitute unprofessional conduct and a crime, thereby imposing a state-mandated local program.

The bill would prohibit the issuance of a healing arts license to any person who is a registered sex offender, and would provide for the revocation of a license upon the conviction of certain sex offenses, as defined. The bill would provide that the commission of, and conviction for, any act of sexual abuse, misconduct, or attempted sexual misconduct, whether or not with a patient, or conviction of a felony requiring registration as a sex offender, be considered a crime substantially related to the qualifications, functions, or duties of a healing arts licensee. The bill would impose requirements on boards with respect to individuals required to register as a sex offender.

This bill would authorize the Attorney General and his or her investigative agents and certain healing arts boards to inquire into any alleged violation of the laws under the boards' jurisdiction and to inspect documents subject to specified procedures. The bill would make the licensees of those healing arts boards or a health care facility that fails to comply with a patient's medical record request, as specified, within 15 days, or who fails or refuses to comply with a court order mandating release of records, subject to civil and criminal penalties, as specified.

By creating a new crime, the bill would impose a state-mandated local program.

The bill would require the employer of certain health care licensees to report to the appropriate board within a specified timeframe information relating to a health care licensee who is suspended or terminated for cause or who resigns. The bill would require a board to investigate these reports, including the inspection and copying of certain documents relating to that suspension, termination, or resignation.

The bill would require specified healing arts boards, on or after July 1, 2014, to post on their Internet Web sites specified information in their possession, custody, or control regarding their licensees and their license status, prior discipline, and convictions.

The bill would authorize a certain healing arts board boards to automatically suspend the license of any licensee who also has an
out-of-state license or a license issued by an agency of the federal government that is suspended or revoked, except as specified.

(4) The bill would declare the intent of the Legislature that the Bureau of State Audits conduct a specified review of the Pharmacists Recovery Program by January 1, 2013. Diversion programs administered by the Dental Board of California, the Osteopathic Medical Board of California, the Physical Therapy Board of California, the Board of Registered Nursing, the Physician Assistant Committee, and the Veterinary Medical Board of California by January 1, 2014.

(5) Existing law establishes in the Department of Justice the Health Quality Enforcement Section, whose primary responsibility is to investigate and prosecute proceedings against licensees and applicants within the jurisdiction of the Medical Board of California and any committee of the board, the California Board of Podiatric Medicine, and the Board of Psychology.

This bill would authorize a healing arts board to utilize the services of the Health Quality Enforcement Section or licensing section. If utilized, the bill would require the Attorney General to assign attorneys employed by the office of the Attorney General to work on location at the licensing unit of the Division of Investigation of the Department of Consumer Affairs, as specified.

(6) The bill would delete, revise and recast various provisions of the Physical Therapy Practice Act and would make other conforming changes.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

The people of the State of California do enact as follows:

1 SECTION 1. This act shall be known and may be cited as the Consumer Health Protection Enforcement Act.
SEC. 2. (a) The Legislature finds and declares the following:
(1) In recent years, it has been reported that many of the healing arts boards within the Department of Consumer Affairs take, on average, more than three years to investigate and prosecute violations of law, a timeframe that does not adequately protect consumers.
(2) The excessive amount of time that it takes healing arts boards to investigate and prosecute licensed professionals who have violated the law has been caused, in part, by legal and procedural impediments to the enforcement programs.
(3) Both consumers and licensees have an interest in the quick resolution of complaints and disciplinary actions. Consumers need prompt action against licensees who do not comply with professional standards, and licensees have an interest in timely review of consumer complaints to keep the trust of their patients.
(b) It is the intent of the Legislature that the changes made by this act will improve efficiency and increase accountability within the healing arts boards of the Department of Consumer Affairs, and will remain consistent with the long-held paramount goal of consumer protection.
(c) It is further the intent of the Legislature that the changes made by this act will provide healing arts boards within the Department of Consumer Affairs with the regulatory tools and authorities necessary to reduce the average timeframe for investigating and prosecuting violations of law by healing arts practitioners to between 12 and 18 months.

SEC. 3. Section 40 is added to the Business and Professions Code, to read:

The board shall notify the licensee in writing of the license suspension and of his or her right to elect to have the issue of penalty heard as provided in subdivision (d).

(b) Upon receipt of the certified copy of the record of conviction, if after a hearing before an administrative law judge from the Office of Administrative Hearings it is determined that the felony for which the licensee was convicted was substantially related to the qualifications, functions, or duties of a licensee, the board shall suspend the license until the time for appeal has elapsed, if no appeal has been taken, or until the judgment of conviction has been affirmed on appeal or has otherwise become final, and until further order of the board.

(c) Notwithstanding subdivision (b), a conviction of a charge of violating any federal statute or regulation or any statute or regulation of this state, regulating dangerous drugs or controlled substances, or a conviction of Section 187, 261, 262, or 288 of the Penal Code, shall be conclusively presumed to be substantially related to the qualifications, functions, or duties of a licensee and no hearing shall be held on this issue. (2) If the individual is licensed under this chapter, the board shall promptly revoke the license of the individual in accordance with the procedures set forth in Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code. (2) An individual who is required to register as a sex offender pursuant to Section 290 of the Penal Code solely because of a misdemeanor conviction under Section 314 of the Penal Code. However, nothing in this paragraph shall prohibit the board from exercising its discretion to discipline a licensee under any other provision of state law based upon the licensee's conviction under Section 314 of the Penal Code.

(3) Any administrative adjudication proceeding under Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code that is fully adjudicated prior to January 1, 2008. Members of the board, deputies, employees, agents, the office of the Attorney General, and representatives of the board shall keep in confidence during the course of investigations the names of any patients whose records are reviewed and may not disclose or reveal those names, except as is necessary during the course of an investigation, unless and until proceedings are instituted. The authority under this subdivision to examine records of patients in the office of a licensee is limited to records of patients who have complained to the board about that licensee:

(2) Any document relevant to the business operations of a licensee, and not involving medical records attributable to identifiable patients, may be inspected and copied where relevant to an investigation of a licensee.

(e) In all cases where documents are inspected or copies of those documents are received, their acquisition or review shall be arranged so as not to unnecessarily disrupt the medical and business operations of the licensee or of the facility where the records are kept or used.

(d) Where certified documents are lawfully requested from licensees in accordance with this section by the Attorney General or his or her agents or deputies, or investigators of any board, the documents shall be provided within 10 business days of receipt of the request, unless the licensee is unable to provide the certified documents within this time period for good cause, including, but not limited to, physical inability to access the records in the time allowed due to illness or travel. Failure to produce requested certified documents or copies thereof, after being informed of the required deadline, shall constitute unprofessional conduct. (f) The licensee shall cooperate with the board in furnishing information or assistance as may be required, including, but not

SEC. 56. Section 2570.44 is added to the Business and Professions Code, to read:

2570.44. (a) (1) Notwithstanding any other provision of law, a licensee who fails or refuses to comply with a request for the certified medical records of a patient that is accompanied by that patient’s written authorization for release of records to a board together with a notice citing this section and describing the penalties for failure to comply with this section shall be required to pay to the board a civil penalty of up to one thousand dollars ($1,000) per day for each day that the documents have not been produced after the 15th day, up to ten thousand dollars ($10,000), unless the licensee is unable to provide the documents within this time period for good cause:

(2) A health care facility shall comply with a request for the certified medical records of a patient that is accompanied by that patient’s written authorization for release of records to a board together with a notice citing this section and describing the penalties for failure to comply with this section. Failure to provide the authorizing patient’s certified medical records to the board within 15 days of receiving the request, authorization, and notice shall subject the health care facility to a civil penalty, payable to the board, of up to one thousand dollars ($1,000) per day for each day that the documents have not been produced after the 15th day; up to ten thousand dollars ($10,000), unless the health care facility is unable to provide the documents within this time period for good cause. This paragraph shall not require health care facilities to assist the board in obtaining the patient’s authorization. The board shall pay the reasonable costs of copying the certified medical records, but shall not be required to make that payment prior to the production of the medical records:

(b) (1) A licensee who fails or refuses to comply with a court order, issued in the enforcement of a subpoena, mandating the release of records to the board, shall pay to the board a civil penalty of up to one thousand dollars ($1,000) per day for each day that
the documents have not been produced after the date by which the
court order requires the documents to be produced, up to ten
thousand dollars ($10,000), unless it is determined that the order
is unlawful or invalid. Any statute of limitations applicable to the
filing of an accusation by the board shall be tolled during the period
the licensee is out of compliance with the court order and during
any related appeals.

(2) Any licensee who fails or refuses to comply with a court
order, issued in the enforcement of a subpoena, mandating the
release of records to a board is guilty of a misdemeanor punishable
by a fine payable to the board not to exceed five thousand dollars
($5,000). The fine shall be added to the licensee's renewal fee if
it is not paid by the next succeeding renewal date. Any statute of
limitations applicable to the filing of an accusation by the board
shall be tolled during the period the licensee is out of compliance
with the court order and during any related appeals.

(3) A health care facility that fails or refuses to comply with a
court order, issued in the enforcement of a subpoena, mandating
the release of patient records to the board, that is accompanied by
a notice citing this section and describing the penalties for failure
to comply with this section, shall pay to the board a civil penalty
of up to one thousand dollars ($1,000) per day for each day that
the documents have not been produced, up to ten thousand dollars
($10,000), after the date by which the court order requires the
documents to be produced, unless it is determined that the order
is unlawful or invalid. Any statute of limitations applicable to the
filing of an accusation by the board against a licensee shall be
tolled during the period the health care facility is out of compliance
with the court order and during any related appeals.

(4) Any health care facility that fails or refuses to comply with
a court order, issued in the enforcement of a subpoena, mandating
the release of records to the board is guilty of a misdemeanor
punishable by a fine payable to the board not to exceed five
thousand dollars ($5,000). Any statute of limitations applicable to
the filing of an accusation by the healing arts board against a
licensee shall be tolled during the period the health care facility is
out of compliance with the court order and during any related
appeals.

(c) Multiple acts by a licensee in violation of subdivision (b)
shall be punishable by a fine not to exceed five thousand dollars
(a) Notwithstanding any other provision of law, any employer of a licensee shall report to the board the suspension or termination for cause, or any resignation in lieu of suspension or termination for cause, of any licensee in its employ within 15
business days. The report shall not be made until after the conclusion of the review process specified in Section 52.3 of Title 2 of the California Code of Regulations and Skelly v. State Personnel Bd. (1975) 15 Cal.3d 194, for public employees. This required reporting shall not constitute a waiver of confidentiality of medical records. The information reported or disclosed shall be kept confidential except as provided in subdivision (c) of Section 800 and shall not be subject to discovery in civil cases.

(b) The information to be reported by the employer shall include the name and license number of the licentiate involved, a description of the facts and circumstances of the suspension or termination for cause, any resignation in lieu of suspension or termination for cause, and any other relevant information deemed appropriate by the employer.

(c) The board shall be entitled to inspect and copy the following documents in the record for any suspension or termination for cause, or any resignation in lieu of suspension or termination for cause, resulting in action that is required to be reported pursuant to this section:

(1) Any statement for suspension or termination of the licensee.

(2) Any document or exhibits relevant to the suspension or termination.

(d) If, during the investigation by the board of the cause for the termination or suspension or resignation of the licensee, it is found that there has been a violation of existing state or federal law, the board shall report the violation to the appropriate agency.

(e) For purposes of this section, "suspension or termination for cause" or "resignation in lieu of suspension or termination for cause" is defined as resignation, suspension, or termination from employment for any of the following reasons:

(1) Use of controlled substances or alcohol to the extent that it impairs the licensee's ability to safely practice.

(2) Unlawful sale of a controlled substance or other prescription items.

(3) Patient or client abuse, neglect, physical harm, or sexual contact with a patient or client.

(4) Gross negligence or incompetence.

(5) Theft from a patient or client, any other employee, or the employer.

(f) As used in this section, the following definitions apply:
(1) "Gross negligence" means a substantial departure from the standard of care, which, under similar circumstances, would have ordinarily been exercised by a competent licensee, and which has or could have resulted in harm to the consumer. An exercise of so slight a degree of care as to justify the belief that there was a conscious disregard or indifference for the health, safety, or welfare of the consumer shall be considered a substantial departure from the standard of care.

(2) "Incompetence" means the lack of possession of, and the failure to exercise that degree of learning, skill, care, and experience ordinarily possessed by, a responsible licensee.

(3) "Willful" means a knowing and intentional violation of a known legal duty.

(g) (1) Willful failure of an employer to make a report required by this section is punishable by an administrative fine not to exceed one hundred thousand dollars ($100,000) per violation.

(2) Any failure of an employer, other than willful failure, to make a report required by this section is punishable by an administrative fine not to exceed fifty thousand dollars ($50,000).

(h) The board shall investigate the circumstances underlying any report received pursuant to this section within 30 days to determine if an interim suspension order or temporary restraining order should be issued. The board shall otherwise provide timely disposition of the reports received pursuant to this section.

(i) The board shall send to the licentiate a copy of the report along with the reasons for the filing of the report and notice advising the licentiate of his or her right to submit additional statements or other information to the board.

(j) Pursuant to Section 43.8 of the Civil Code, no person shall incur any civil penalty as a result of making any report required by this article.

(k) No report is required under this section where a report of the action taken is already required under Section 805.

SEC. 52. Section 2570.46 is added to the Business and Professions Code, to read:

2570.46. Unless otherwise provided, on or after July 1, 2014, the board shall post on its Internet Web site the following information, including the name and license number, in its
possession, custody, or control regarding every licensee for which
the board licenses:
(a) With regard to the status of every license, whether or not
the licensee or former licensee is in good standing, subject to a
temporary restraining order, subject to an interim suspension order,
subject to a restriction or cease practice ordered pursuant to Section
23 of the Penal Code, or subject to any of the enforcement actions
described in Section 803.1.
(b) With regard to prior discipline of a licensee, whether or not
the licensee or former licensee has been subject to discipline by
the board or by the board of another state or jurisdiction, as
described in Section 803.1.
(c) Any felony conviction of a licensee reported to the board.
(d) All current accusations filed by the Attorney General,
including those accusations that are on appeal. For purposes of
this paragraph, “current accusation” means an accusation that has
not been dismissed, withdrawn, or settled, and has not been finally
decided upon by an administrative law judge and the board unless
an appeal of that decision is pending.
(e) Any malpractice judgment or arbitration award imposed
against a licensee and reported to the healing arts board.
(f) Any hospital disciplinary action imposed against a licensee
that resulted in the termination or revocation of a licensee’s hospital
staff privileges for a medical disciplinary cause or reason pursuant
to Section 2570.44 or 805.
(g) Any misdemeanor conviction of a licensee that results in a
disciplinary action or an accusation that is not subsequently
withdrawn or dismissed.
(h) Appropriate disclaimers and explanatory statements to
accompany the above information, including an explanation of
what types of information are not disclosed. These disclaimers and
statements shall be developed by the board and shall be adopted
by regulation.
(i) The information provided on the Internet shall be in
accordance with the California Public Records Act (Chapter 3.5
(commencing with Section 6250) of Division 7 of Title 1 of the
Government Code) and the Information Practices Act of 1977
(Chapter 1 (commencing with Section 1798) of Title 1.8 of Part
4 of Division 3 of the Civil Code) and shall comply with the
SB 924, as amended, Walters Price. Physical therapists: direct access to services: professional corporations.

Existing

(1) Existing law, the Physical Therapy Practice Act, creates the Physical Therapy Board of California and makes it responsible for the licensure and regulation of physical therapists. The act defines the term "physical therapy" for its purposes and makes it a crime to violate any of its provisions. The act authorizes the board to suspend, revoke, or impose probationary conditions on a license, certificate, or approval issued under the act for unprofessional conduct, as specified.

This bill would specify that patients may access physical therapy treatment directly, and would, in those circumstances, require a physical
therapist to refer his or her patient to another specified healing arts practitioner if the physical therapist has reason to believe the patient has a condition requiring treatment or services beyond that scope of practice, to disclose to the patient any financial interest he or she has in treating the patient; and, with the patient’s written authorization, to notify the patient’s physician and surgeon, if any, that the physical therapist is treating the patient. The bill would prohibit a physical therapist from treating a patient beyond a 30-day period 30 business days or 12 visits, whichever occurs first, unless the patient has obtained a diagnosis from a physician and surgeon. Physical therapist receives a specified authorization from a person with a physician and surgeon’s certificate. The bill would require a physical therapist, prior to the initiation of treatment services, to provide a patient with a specified notice concerning the limitations on the direct treatment services. The bill would provide that failure to comply with these provisions constitutes unprofessional conduct subject to disciplinary action by the board:

(2) Existing law regulating professional corporations provides that certain healing arts practitioners may be shareholders, officers, directors, or professional employees of a medical corporation or a podiatric medical corporation, subject to certain limitations.

This bill would add licensed physical therapists and licensed occupational therapists to the list of healing arts practitioners who may be shareholders, officers, directors, or professional employees of those corporations. The bill would also provide that specified healing arts licensees may be shareholders, officers, directors, or professional employees of a physical therapy corporation. The bill would require, except as specified, that a medical corporation, podiatric corporation, and physical therapy corporation provide patients with a specified disclosure notifying them that they may seek physical therapy treatment services from any physical therapy provider. The bill would also make conforming changes to related provisions.

Because the bill would specify additional requirements under the Physical Therapy Practice Act, the violation of which would be a crime, it would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason.
The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that an individual's access to early intervention to physical therapy treatment may decrease the duration of a disability, reduce pain, and lead to a quicker recovery.

SEC. 2. Section 2406 of the Business and Professions Code is amended to read:

2406. A medical corporation or podiatry corporation is a corporation which is authorized to render professional services, as defined in Sections 13401 and 13401.5 of the Corporations Code, so long as that corporation and its shareholders, officers, directors, and employees rendering professional services who are physicians and surgeons, psychologists, registered nurses, optometrists, podiatrists, chiropractors, acupuncturists, naturopathic doctors, physical therapists, occupational therapists, or, in the case of a medical corporation only, physician assistants, marriage and family therapists, or clinical social workers, are in compliance with the Moscone-Knox Professional Corporation Act, the provisions of this article, and all other statutes and regulations now or hereafter enacted or adopted pertaining to the corporation and the conduct of its affairs.

With respect to a medical corporation or podiatry corporation, the governmental agency referred to in the Moscone-Knox Professional Corporation Act is the Division of Licensing board.

SEC. 3. Section 2406.5 is added to the Business and Professions Code, to read:

2406.5. (a) A medical corporation or podiatry corporation that is authorized to render professional services, as defined in Sections 13401 and 13401.5 of the Corporations Code, shall disclose to its patients, orally and in writing, when initiating any physical therapy treatment services, that the patient may seek physical therapy treatment services from a physical therapy provider of his or her choice who may not necessarily be employed by the medical or podiatry corporation.

(b) This disclosure requirement shall not apply to any medical corporation that contracts with a health care service plan with a
license issued pursuant to the Knox-Keene Health Care Service Plan Act of 1975 (Chapter 2.2 (commencing with Section 1340) of Division 2 of the Health and Safety Code) if the licensed health care service plan is also exempt from federal taxation pursuant to Section 501(c)(3) of the Internal Revenue Code.

SEC. 2.

SEC. 4. Section 2620.1 is added to the Business and Professions Code, to read:

2620.1. (a) In addition to receiving wellness and evaluation services from a physical therapist, a person may initiate physical therapy treatment directly from a licensed physical therapist provided that the treatment is within the scope of practice of physical therapists, as defined in Section 2620, and that all the following conditions are met:

(1) If, at any time, the physical therapist has reason to believe that the patient has signs or symptoms of a condition that requires treatment beyond the scope of practice of a physical therapist, the physical therapist shall refer the patient to a person holding a physician and surgeon’s certificate issued by the Medical Board of California or by the Osteopathic Medical Board of California or to a person licensed to practice dentistry, podiatric medicine, or chiropractic.

(2) The physical therapist shall disclose to the patient any financial interest he or she has in treating the patient and shall comply with Article 6 (commencing with Section 650) of Chapter 1 of Division 2.

(3) With the patient’s written authorization, the physical therapist shall notify the patient’s physician and surgeon, if any, that the physical therapist is treating the patient.

(4) With respect to a patient initiating physical therapy treatment services directly from a physical therapist, the physical therapist shall not continue treating that patient beyond 30 business days or 12 visits, whichever occurs first, without receiving, from a person holding a physician and surgeon’s certificate from the Medical Board of California or the Osteopathic Medical Board of California, a dated signature on the physical therapist’s plan of care indicating approval of the physical therapist’s plan of care. Approval of the physical therapist’s plan of care shall include an appropriate patient examination by the person holding a physician and surgeon’s certificate from the Medical Board of California.
or the Osteopathic Medical Board of California. For purposes of
this paragraph, "business day" means any calendar day except
Saturday, Sunday, or the following business holidays: New Year’s
Day, Washington’s Birthday, Memorial Day, Independence Day,
Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, and
Christmas Day.

(b) The conditions in paragraphs (1), (2), and (3), and (4) of
subdivision (a) do not apply to a physical therapist when providing
evaluation or wellness physical therapy services to a patient as
described in subdivision (a) of Section 2620 or treatment provided
upon referral or diagnosis by a physician and surgeon, podiatrist,
dentist, chiropractor, or other appropriate health care provider
acting within his or her scope of practice. Nothing in this
subdivision shall be construed to alter the disclosure requirements
of Section 2406.5.

(c) Nothing in this section shall be construed to expand or
modify the scope of practice for physical therapists set forth in
Section 2620, including the prohibition on a physical therapist
diagnosing a disease.

(d) Nothing in this section shall be construed to require a health
care service plan, insurer, workers’ compensation insurance plan,
or any other person or entity, including, but not limited to, a state
program or state employer, to provide coverage for direct access
to treatment by a physical therapist.

(e) A physical therapist shall not continue treating a patient
beyond a 30-day period, unless the patient has obtained a diagnosis
by a physician and surgeon.

(e) When a person initiates physical therapy treatment services
directly pursuant to this section, the physical therapist shall not
perform physical therapy treatment services without first providing
the following written notice, orally and in writing, on one page,
in at least 14-point type, and obtaining a patient signature on the
notice:

Direct Physical Therapy Treatment Services

You are receiving direct physical therapy treatment services
from an individual who is not a physician and surgeon, but who
is a physical therapist licensed by the Physical Therapy Board of
California.
Under California law, you may continue to receive direct physical therapy treatment services for a period of 30 business days or 12 visits, whichever occurs first, after which time a physical therapist may continue providing you with physical therapy treatment services only after receiving, from a person holding a physician and surgeon's certificate issued by the Medical Board of California or by the Osteopathic Medical Board of California, a dated signature on the physical therapist’s plan of care indicating approval of the physical therapist’s plan of care.

If you have received direct physical therapy treatment services for a duration of 30 business days or 12 visits, whichever occurs first, from a physical therapist, it may constitute unprofessional conduct for that physical therapist or for another physical therapist to provide direct physical therapy treatment services without receiving from a person holding a physician and surgeon’s certificate issued by the Medical Board of California or by the Osteopathic Medical Board of California a dated signature on the physical therapist’s plan of care, indicating approval of the physical therapist’s plan of care.

[Patient’s Signature/Date]

SEC. 3. Section 2660 of the Business and Professions Code is amended to read:

2660. (j) The aiding or abetting of any person to engage in the unlawful practice of physical therapy:

(k) The commission of any fraudulent, dishonest, or corrupt act that is substantially related to the qualifications, functions, or duties of a physical therapist or physical therapist assistant:

(l) Except for good cause, the knowing failure to protect patients by failing to follow infection control guidelines of the board; thereby risking transmission of blood-borne infectious diseases from licensee to patient, from patient to patient, and from patient to licensee. In administering this subdivision, the board shall consider referencing the standards, regulations, and guidelines of the State Department of Public Health developed pursuant to Section 1250.11 of the Health and Safety Code and the standards, regulations, and guidelines pursuant to the California Occupational Safety and Health Act of 1973 (Part I (commencing with Section 6300) of Division 5 of the Labor Code) for preventing the transmission of HIV, hepatitis B, and other blood-borne pathogens in health care settings. As necessary, the board shall consult with the Medical Board of California, the California Board of Podiatric Medicine, the Dental Board of California, the Board of Registered Nursing, and the Board of Vocational Nursing and Psychiatric Technicians of the State of California, to encourage appropriate consistency in the implementation of this subdivision:

Heather,

I am not able to attend the Board's Legislative and Regulatory Affairs Committee meeting today so I thought I would forward OTAC and AOTA's positions on the two bills included on the Committee's agenda as an FYI.

AB 171 (Beall)
OTAC and AOTA are supportive of Beall's intent with AB 171 to confirm/clarify existing law that requires health plans to provide coverage for the diagnosis and medically necessary treatment of pervasive developmental disorders. The Association is communicating with the author's office relative to the technical wording of the bill which modifies existing law enacted by SB 946 (Statutes of 2011) that requires health plans to provide coverage for autism services. There is some concern that AB 171 makes it less clear that occupational therapy services for behavioral health treatment would be a covered service. As long as this concern is addressed, OTAC plans to support AB 171.

SB 924 (Price)
OTAC and AOTA support the provisions of SB 924 which clarify that an occupational therapist can be employed by a medical corporation. The Associations believe it is important for occupational therapists to have the ability to be employed by a medical corporation if they so choose. OTAC and AOTA are neutral on the language in SB 924 which would allow for patient direct access to physical therapy services for up to 30 business days without a physician referral. Thus, the Association's position on SB 924 is neutral.

Let me know if you need any further clarity. I have attached a fact sheet on AB 171 that I received from the author's office just in case the background might be helpful to you.

Take care,
Jennifer
Hi Heather,

It was nice to see you yesterday. Thank you for allowing us to address some questions related to SB 924 Consumer Direct Access to Physical Therapist Services. In response to our conversation, the following is a list of the consumer safeguards that are included in the current version of the bill.

- Upon authorization of the patient, physical therapists must notify the patient’s physician that they are treating the patient;
- Physical therapists must refer patients to an appropriate health care professional if they see conditions outside of their scope of practice.
- Physical therapists must disclose any financial interest they have in treating the patient;
- Physical therapists are prohibited from treating a patient beyond 30 business days or 12 visits unless a diagnosis has been obtained from a physician;
- SB 924 reiterates that physical therapists are prohibited from diagnosing disease and that the bill is not an expansion or modification of scope of practice;
- SB 924 clarifies that insurance companies and health plans are not required to provide coverage for direct treatment; and
- Lastly, if a physical therapist fails to comply with the conditions of the bill, a cause for disciplinary action up to revocation is possible.

If you or your Board members have any additional questions, please don’t hesitate to contact Tameka Island or myself.

Consumer Direct Access to Physical Therapist Services
SB 924 (Price, Steinberg, Walters)

How is physical therapy accessed across the United States?
Currently, 36 states, including all of the western states surrounding California, allow patients to directly access physical therapist treatment and have been doing so safely for an average of 25 years.

How is physical therapy accessed in California?
Currently, in California, patients have direct access to physical therapists for the purpose of evaluation but patients must receive a diagnosis from a physician before physical therapy treatment can start. The requirement for a diagnosis results from a 1965 Attorney General’s opinion. Then-AG Thomas Lynch speculated that the intent of the law was to require a diagnosis by a physician before physical therapy treatment could begin, even though such a requirement was or is not stated anywhere in law. The practice act for physical therapists states that the practice of physical therapy does not “…authorize the diagnosis of disease…,” and that is understood. Physical therapists treat mobility- and movement-related impairments.

Often, a physician’s diagnosis is simply a symptom description or a listing of a body part, such as “back pain” or “elbow.” Non-specific descriptions of musculoskeletal problems by primary care physicians and other specialists are most often appropriate because they do not necessarily have the expertise required to make a more specific diagnosis or identify the underlying cause of the problem. Orthopaedic surgeons and physical therapists remain the best-trained specialists to evaluate and treat patients with musculoskeletal disorders.

Why is consumer direct access to physical therapist’s services important?
Allowing consumers to see physical therapists directly would increase their access to safe and efficacious healthcare and enable them to have more choices about their care. With health care reform implementation on the horizon, millions more patients will require access to care. Under the direct access model, an appropriate physical therapy patient can begin treatment without delay. If the patient is not appropriate for physical therapy, the physical therapist must refer the patient to the appropriate health care professional. SB 924 creates a new direct cause of action for loss of license for failing to refer properly. Additionally, Medicare (which is also used as the basis for many services under Medi-Cal) will pay for direct access, as long as an appropriate provider approves the plan of care within 30 days.

Are physical therapists properly trained to see patients directly?
Yes. Physical therapists receive three years of post-bachelor’s degree training and education. The standard for all accredited physical therapy training programs in the 53 U.S. states and territories is a clinical doctorate in physical therapy (DPT). Physical therapy students from across the United States take the same national licensing exam. As such, physical therapists in Arizona, Nevada or Oregon who possess the same training and education as those in California, may provide patient care directly to a patient and lose that privilege when they cross the state line into California.

California Physical Therapy Association • (800) 743-2782 • www.ccapta.org • www.movecalifornia.org
Is direct access to physical therapist services safe for patients?

Yes. According to the Health Providers Service Organization (the malpractice insurance carrier for physical therapists in all 50 states), there is NO premium differential for physical therapists in direct access states versus non-direct access states because there is no increase in claims activity attributable to direct access. In addition, the Federation of State Boards of Physical Therapy (an organization that is comprised of the 53 licensing jurisdictions in the United States and the territories of Guam, Puerto Rico and Washington, D.C.) has not found an increase in licensing complaints or actions taken against physical therapists in direct access states when compared with states that have limited or no direct access. This evidence demonstrates that the practice is safe.

How can physical therapists treat patients directly when they are prohibited from making a medical diagnosis?

Physical therapists are trained in the diagnostic process and take full responsibility for the patient’s medical diagnosis, whether or not the patient is referred by a physician. As the literature demonstrates, physical therapists and orthopedic surgeons perform better in musculoskeletal diagnosis and screening for serious pathology than all other physician groups. (“BMC Musculoskeletal Disorders” 2005, 6:32, doi:10.1186/1471-2474-6-32) PTs do not diagnose disease, nor do they seek to do so. Physical therapists are trained to screen for “red flags” and determine whether a patient’s concern falls within their scope of practice and, further, within their area of competence and expertise. When a physical therapist concludes that a patient’s condition cannot be treated most effectively within his or her scope of practice, he or she refers the patient to the most appropriate medical specialist, just as other healthcare practitioners do. Under SB 924, PTs failing to refer patients for something outside their scope of practice risk losing their license.

Will insurance companies be required to pay for direct access to physical therapist services under SB 924?

No, but under Medicare and in the other states where direct access to physical therapist treatment is allowed, insurance companies do pay for this care. In addition, private payers, such as United Health Care, have policies already in place to cover direct access to physical therapist treatment in states where patients have the right to access physical therapist treatment directly. These policies are in place because payers view direct access as an efficient healthcare model.

Will direct access to physical therapist services lead to overutilization of physical therapy services?

Nothing in SB 924 changes the authority for insurers, including government-sponsored programs, to require that a “medical necessity” standard be met, to cap services, or to require authorization for care. As musculoskeletal specialists, physical therapists formulate a specific plan of action to efficiently treat patients’ physical problems. Physical therapists who work in physician-owned physical therapy clinics (POPTs) can be pressured to see patients for the maximum number of allowable visits, regardless of whether the patients need them. A 1992 New England Journal of Medicine article summarizing a study of referral-for-profit practices in the California Workers’ Compensation system stated that physical therapy was initiated 2.3 times more often by the physicians in self-referral arrangements.

Also, in a 2006 federal Department of Health Services report by Stuart Wright, Deputy Inspector General for Evaluations and Inspections, titled “Physical Therapy Billed By Physicians,” the conclusion states “when a physician orders and directs physical therapy services, 91 percent of the time the care is
below professional standards and considered unnecessary and fraudulent under the Medicare program” (underline added). Four states have now banned this conflict-of-interest practice. In addition, serious consideration is being given in Washington, D.C. to closing the loopholes in the “Ethical Patient Referrals Act,” also known as the “Stark Law.” The Alliance for Integrity in Medicare (AIM) is a coalition of physicians and other health professionals whose mission is to close self-referral loopholes to maintain the integrity of the Medicare program and improve efficiency of care.

Can Direct Access lead to cost savings and fewer physical therapy visits?

Yes. A recently-released (October 2011) study at the University of Iowa analyzed five years (2003-2007) of private health insurance physical therapy claims data from a Midwest insurer on beneficiaries aged 18-64 in Iowa and South Dakota. In total, 63,000 outpatient physical therapy episodes of care were analyzed—more than 45,000 were physician-referred, while more than 17,000 were "self-referred" to physical therapists. Researchers found that self-referred patients had fewer physical therapy visits (86% compared to those that were physician-referred) and lower allowable amounts ($0.87 for every $1.00 of physician-referred) during the episode of care. Also, overall related health care use, or care related to the problem for which physical therapy was received, but not physical therapy treatment, was lower in the self-referred group. The researchers concluded, “Our findings do not support the assertion that self-referral leads to overuse of care or discontinuity in care, based on a very large population of individuals in a common private health insurance plan with no requirement for PT [physical therapy] referral or prohibition on patient self-referral. We consistently found lower use in the self-referral group, after adjusting for key demographic variables, diagnosis group, and case mix. We also found that individuals in both groups were similarly engaged with the medical care system during their course of care and afterwards.”

Another recent study, published in the journal, Spine, (“Management Patterns in Acute Low Back Pain: The Role of Physical Therapy” Spine. 2010 Nov 19.) demonstrated a decreased usage of medical services in patients who receive physical therapy early after an acute low back pain episode. The study showed that Medicare patients who received physical therapy in the acute phase following an episode of low back pain were less likely to receive epidural steroid injections, lumbar surgery, or frequent physician office visits in the year following their initial physician visit as compared with patients who received physical therapist treatment later. This underlines the fact that direct access to physical therapist services gets patients on a path to recovery sooner, significantly decreasing future costs. In addition, many payers currently reimburse physician-provided physical therapy at a higher rate than PT provided in the PT-owned practice setting making direct access to physical therapist services a lower cost item for both the payer and the patient.

Who supports Direct Access?

Supporters of Direct Access include the California Physical Therapy Association (CPTA), the American Physical Therapy Association, the Physical Therapy Board of California, the Federation of State Physical Therapy Boards, consumers, consumer groups and others.

Dear Ms. DeFoe,

I understand that the California Physical Therapy Association is currently looking at the issue of direct access and physical therapy practice. The Federation of State Boards of Physical Therapy is the organization representing the 53 jurisdictional boards which license physical therapists in the United States. Our member boards are made up of professionals, public members, and administrators. The Federation was formed in 1986, to provide an organization through which member licensing authorities could work together to promote and protect the health, welfare and safety of the American public.

One of the sources of information regarding physical therapy practice across the United States maintained by the Federation is the Jurisdiction Licensing Reference Guide. The Guide is updated regularly with survey information directly from the member boards. According to the records regarding direct access, according to how a state board defines direct access, forty-six states and the District of Columbia have some form of direct access to physical therapy evaluation and treatment. These records can be accessed at http://www.fsbpt.org/professional/Jurisdiction/Licensing. Of those forty-seven jurisdictions, seventeen have what is considered unlimited direct access. Those 17 states that are considered to have unlimited direct access include: Alaska, Arizona, Colorado, Hawaii, Idaho, Iowa, Kentucky, Maryland, Massachusetts, Montana, Nebraska, Nevada, North Dakota, South Dakota, Utah, Vermont and West Virginia. As for your inquiry letter, dated February 1, 2011, I would confirm that the 19 jurisdictions that you have listed (Arkansas, Connecticut, District of Columbia, Delaware, Florida, Tennessee, South Carolina, Maine, Minnesota, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oregon, Pennsylvania, Rhode Island, Virginia, Washington) have the authority to evaluate and initiate treatment under various provisions stipulated in each of their practice acts. I can also confirm that the practice act's in Colorado, Connecticut, Idaho, Maine, Minnesota, North Carolina, and Utah contain language that prohibits the diagnosis of disease or medical diagnosis.

I hope that this information is useful to you. Please feel free to contact me by phone 703-299-3100 ext 233 or e-mail Leslie.Adrian@fsbpt.org if I can be of further assistance.

Sincerely,

Leslie Adrian, PT, MS, MPA

Assemblyman Bill Emmerson
Assembly District 63
State Capitol Office, Room 4158
Sacramento, CA 95814

Dear Assemblyman Emerson:

Thank you for your recent letter. The national office of the American Physical Therapy Association awarded its exclusive endorsement to the professional liability insurance program marketed by Healthcare Service Providers Organization (HPSO) and underwritten by the CNA Insurance Companies in 1992. Since that time, this nationwide program has become a leading provider of professional liability coverage to the physical therapy profession.

I understand that California Assembly Bill 1444 - Consumer Direct Access to Physical Therapist Services, would allow physical therapists in California to treat patients without a physician referral. We are aware that, currently, 43 states and the District of Columbia have some form of direct access. Based upon our review of our claims, we do not view the ability to treat patients without referral (either as a result of state legislation or CMS regulation) as a risk requiring specific screening at this time because we can not make a direct correlation between direct access and increased claims activity. This is demonstrated by the fact that our program does not have a premium differential for physical therapists in direct access states versus non-direct access states.

While we will continue to monitor this legislation as it relates to program claims experience, at this time neither we nor CNA – our insurance partner, foresees that direct access to physical therapy services will become a claim or rate issue for providers of professional liability coverage to the physical therapy profession.

Sincerely,

Michael J. Loughran
Executive Vice President

Report on bills previously reviewed by the Committee and signed into law:

a) AB 415 (Logue), Telehealth.

This bill, among other things:
- Deletes the provisions of state law regarding telemedicine, and instead sets forth provisions relating to telehealth, as defined. This bill requires a health care provider, as defined, prior to the delivery of health care via telehealth, to verbally inform the patient that telehealth may be used and obtain verbal consent from the patient.
- Provides that failure to comply with this provision constitutes unprofessional conduct. This bill, subject to contract terms and conditions, also precludes health care service plans and health insurers from imposing prior to payment, certain requirements regarding the manner of service delivery.
- Establishes procedures for granting privileges to, and verifying and approving credentials for, providers of telehealth services. By changing the definition of a crime applicable to health care service plans, the bill would impose a state-mandated local program.
- Prohibits a requirement of in-person contact between a health care provider and patient under the Medi-Cal program for any service otherwise covered by the Medi-Cal program when the service is appropriately provided by telehealth, as defined, and would make related changes.

b) Senate Bill (SB) 24 (Simitian), Personal Information: Privacy.

This bill:
- Requires any agency, person, or business that is required to issue a security breach notification pursuant to existing law to fulfill certain additional requirements pertaining to the security breach notification, as specified.
- Requires any agency, person, or business that is required to issue a security breach notification to more than 500 California residents pursuant to existing law to electronically submit a single sample copy of that security breach notification to the Attorney General, as specified.
- Provides that a covered entity under the federal Health Insurance Portability and Accountability Act of 1996 is deemed to have complied with these provisions, if it has complied with existing federal law, as specified.

c) SB 541 (Price), Exemptions for boards from the Public Contract Code requirements (for use of Expert Consultants).

This bill:
- Authorizes specified boards to enter into an agreement with an expert consultant, subject to the standards regarding personal service contracts described above, to provide enforcement and examination assistance. The bill requires each board to establish policies and procedures for the selection and use of these consultants.
d) **SB 850 (Leno), Medical records: confidential information.**

- Existing law requires every provider of health care, health care service plan, pharmaceutical company, or contractor who creates, maintains, preserves, stores, abandons, destroys, or disposes of medical information shall do so in a manner that preserves the confidentiality of the information contained therein.
- This bill requires an electronic health or medical record system to automatically record and preserve any change or deletion of electronically stored medical information, and would require the record to include, among other things, the identity of the person who accessed and changed the medical information and the change that was made to the medical information.

e) **SB 946 (Committee on Health), Telemedicine.**

- Existing law requires health care service plan contracts and health insurance policies to provide benefits for specified conditions, including certain mental health conditions.

This bill, among other things:

- Effective July 1, 2012, requires those health care service plan contracts and health insurance policies, except as specified, to provide coverage for behavioral health treatment, as defined, for pervasive developmental disorder or autism. The bill provides, however, that no benefits are required to be provided that exceed the essential health benefits that will be required under specified federal law. Because a violation of these provisions with respect to health care service plans would be a crime, the bill would impose a state-mandated local program.
- Requires the Department of Managed Health Care, in conjunction with the Department of Insurance, to convene an Autism Advisory Task Force by February 1, 2012, to provide assistance to the department on topics related to behavioral health treatment and to develop recommendations relating to the education, training, and experience requirements to secure licensure from the state.
- Requires the department to submit a report of the Task Force to the Governor and specified members of the Legislature by December 31, 2012.
