At its January 24, 2102, Committee meeting the Board recommended take an oppose position on SB 924 and an oppose unless amended position on SB 783.

Upon reviewing the bill, the Committee continued to express concern with patients accessing a physical therapist for treatment without knowing any precautions identified by their treating physician.

Staff noted the positions of other organizations included: Support (California Physical Therapy Association – bill sponsor), Oppose unless amended (California Medical

Association), Oppose unless amended (California Chiropractic Association), neutral (Occupational Therapy Association of California).
